EDUCATION

Pandit Deendayal Energy University

B.Tech. in Computer Engineering; CGPA: 9.40/10

Rajkot, Gujarat

2023 – 2027

TECHNICAL SKILLS

Languages: Java, Python, C++, C, JavaScript, PHP, SQL

Technologies & Frameworks: NodeJS, ReactJS, Express.js, MongoDB (MERN), Generative AI, Scikit-Learn, Pandas, NumPy, XGBoost

Tools & Platforms: Git, GitHub, Eclipse IDE, Jupyter

Core CS: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS

PROJECTS

AI-Driven Predictive Infrastructure Scaling Engine | *Python, XGBoost, Pandas, Streamlit* Apr 2026 – May 2026

- **GitHub:** github.com/parmarmitraj/AI-Driven-Predictive-Infrastructure-Scaling-Engine
- Architected an **XGBoost machine learning model** to forecast server CPU and RAM usage 15 minutes ahead, effectively preventing system downtime.
- Developed a custom **Pandas ETL pipeline** to clean time-series logs and engineer temporal statistical features.
- Validated model precision in forecasting sudden traffic spikes utilizing **MAE and RMSE** evaluation metrics.
- Deployed a real-time **Streamlit dashboard** integrated with **psutil** to stream live hardware telemetry and trigger scaling alerts.

Secure Question Paper Distribution System | *Java, MongoDB, Encryption*

Dec 2025 – Jan 2026

- **GitHub:** github.com/parmarmitraj/secure-question-paper-distribution
- Engineered a secure **Object-Oriented backend** system for encrypted academic file storage and automated scheduled distribution.
- Implemented an encryption workflow utilizing **AES file security** and **RSA key handshakes** to lock academic files until predefined release times.
- Designed strict **role-based authentication** rules to eliminate manual handling risks and prevent unauthorized access or data leaks.

AI Interview Preparation Platform | *ReactJS, NodeJS, Express.js, MongoDB, GenAI*

Sep 2025 – Sep 2025

- **GitHub:** github.com/parmarmitraj/PrepGenius
- Developed a **full-stack Generative AI** platform to simulate technical interviews and deliver actionable, real-time performance analytics.
- Engineered **REST APIs** to integrate **GenAI models** for dynamic technical question generation and instant automated candidate scoring.
- Designed complex **database schemas** to track user interview history, store analytical feedback, and power a real-time progress dashboard.

ACHIEVEMENTS

- Secured **8th position out of 100+ teams** at the **Smart India Hackathon (SIH)** for building a collaborative software solution.
- Solved **300+ Data Structures and Algorithms (DSA)** questions across competitive programming platforms including **LeetCode** and **Codeforces**.
- Completed a 12-week **NPTEL Certification** on "Understanding Incubation and Entrepreneurship," earning an **"Elite" distinction with a 97% score**.
- Qualified **JEE Main** with a **95.42 Percentile**.
